British jour of opthalmology

DECENNIAL INDEX

OF

Original Communications

VOLS. I-X.

NAMES.

PAGE

Abramovicz, I.—Ocular injury caused by liquid ammonia ... ... ix 241
Adams, Dorothy R.—A review of the literature on the crystalline lens ... ... ix 281
Adams, P. H.—Influence of vascular disease in retina on prognosis as regards life ... ... i 161
Some points in retrobulbar neuritis, with special reference to prognosis ... ii 522
Arterio-sclerosis and the eye (Richard Middlemore Postgraduate Lecture, 1919) ... ... iv 297
Adie, W. J.—Cataract in dystrophia myotonica (myotonia atrophica) viii 497
Alexander, G. F.—Note on recording visual acuity ... ... ii 277
Anderson, W. A.—Curious result of explosion injury to eye ... ... iii 15
Assinder, Eric W., and Butler, T. Harrison.—Case of endothelioma of ciliary body ... ...vii 549
Case of intraocular sarcoma of unknown origin causing symptoms of an acute hyalitis ... ... viii 321
Atkinson, E. L., D.S.O.—Snow-blindness: its causes, effects, changes, prevention and treatment ... ... v 49

Ballantyne, Arthur J.—Quinine amaurosis with report of a case ... ... i 153
Diagnosis of sub-retinal tumour... ... ... vi 214
Changes in refraction associated with transient glycosuria... ... ... ix 519
Spontaneous absorption of mature senile cataract ... ... x 202
Bardsley, Percy C.—Retinal signs of arterio-sclerosis compared with those due simply to increased blood pressure ... ... i 239
New form of bifocal lens ... ... iii 97
Barnard, T. W., and Wright, R. E.—Importance of radiography in doubtful cases of optic atrophy with special reference to pituitary disease ...vii 123
Barrett, Sir James W., K.B.E.—Report of ophthalmic cases in Egypt, 1915... iii 78
Vision of railway servants ... ...vii 329
Beaumont, W. M.—Butyn: a substitute for cocain ... ... vi 316
Berens, Conrad, and Losey, Ray R.—An untied conjunctival suture and conjunctival bridge in cataract extraction. Results and conclusions x 577
Berger, Emil.—Importance of psychical inhibition (neutralization) in binocular single vision ... ... vi 22
Berner, O.—Studies on the peripheral relations of the musculus dilatator pupillae... ... ... x 420
——— and **Holth, S.**—Congenital miosis or pinhole pupils owing to developmental faults of dilatator muscle... ... ...vii 401
Berry, Sir George A.—Remarks suggested by Dr. Gordon Holmes's paper "Disturbances of visual orientation" ... ... ii 597
A difficulty in accepting the Young-Helmholtz theory ... ... iv 537
Bowdler, A. P.—Comparative frequency of defects of visual acuity among accepted aviation candidates, pupils, and experienced pilots... ...iv 97

PAGE

Brailey, A. R.—New heterophoria test ... ... iii 161
Bride, T. Milnes.—Case of tuberculous choroiditis terminated by meningitis and multiple brain abscesses ... ... viii 320
Brown, R. Graham.—Case of an eyelash perforating the cornea and anterior lens capsule ... ... iii 162
Browning, S. H.—Radical cure of gonorrhoeal iritis ... ... iv 102
Brownlie, W. Barrie.—Case of implantation cyst of iris and ciliary body ... vii 497
Bryant, C. H.—The third dimension in monocular vision ... ... vii 271
Buchanan, Leslie.—Case of metal embedded in lens: normal vision regained after nine months ... ... i 246
Thomas Reid, M.D. (1830-1911). (British Masters of Ophthalmology Series) ... ... iii 289
Case of unusually extensive rupture of corneo-scleral margin ... ... iii 497
Injuries to eyes of children ... ... v 14
Monocular optic neuritis ... ... vii 170
Burdon-Cooper, J.—Aetiology of cataract (Doyne Memorial Lecture, 1922) ... ... vi 385, 433
Butler T. Harrison.—The ring magnet ... ... i 46
Spring catarrh: with special reference to diagnosis and treatment by radium ... ... i 411
Statistics of cataract extraction ... ... iii 317
A tonometric chart... ... ... iv 279
Some examples of idiosyncrasy ... ... v 118
Sloughing cornea in Graves's disease and in disseminated sclerosis ... v 315
The influence of trauma upon the onset of interstitial keratitis ... ... vi 413
Professor Vogt's course on slit-lamp microscopy ... ... vii 551
The Doyne Memorial Lecture, 1924. (Focal illumination of eye with special reference to clinical use of Gullstrand's slit-lamp) ... viii 561
Thomson's capsular cataract ... ... x 182
Case of retrobulbar neuritis following a septic wound ... ... x 184
Visibility of nuclei of the endothelial cells of cornea in man ... ... x 484
——— and **Assinder, Eric W.**—Case of intraocular sarcoma of unknown origin causing symptoms of an acute hyalitis ... ... viii 321
Case of endothelioma of ciliary body ... ... vii 549
——— and **White, E. W. Wood.**—Suppuration after cataract extraction successfully treated ... ... iii 496
Byers, W. Gordon M.—Two cases of traumatic keratitis in the new born ... ix 162

Cameron, Elizabeth P.—Hereditary dislocation of lens occurring in four successive generations ... ... x 384
Cardell, J. D. M.—Krukenberg's spindles ... ... x 198
Carmichael, E. Arnold and **Critchley, Macdonald.**—The relations between eye movements and other cranial muscles ... ... ix 49
Chambers, E. R.—Paralysis of divergence in encephalitis lethargica... viii 417
Charles, E.—Removal of filaria from under the conjunctiva ... ... vi 321
Chavasse, Bernard.—Note on the illumination required for the instantaneous colour photography of the eye (life-size) ... ... ix 66
Clapp, C. A.—New formed vessels in vitreous of specific origin, with report of a case with drawings ... ... x 435
Clarke, Ernest—Correction of errors of refraction ... ... ii 323
Clegg, J. Gray.—Sclero-corneal trephining for hypertony: an experience of 250 operations ... ... i 532
Notation of axes of cylinders ... ... iii 443
Central scotoma in anterior uveitis. ... ... vi 118
Colledge, Lionel, and **James, R. R.**—Lupus of lacrymal sac ... ... viii 165
Collins, Sir William J., K.C.V.O.—Sir William Lawrence (1783-1867) (British Masters of Ophthalmology Series) ... ... ii 497
Collis, Edgar C.—Discussion on miners' nystagmus ... ... ix 585
Colombo, G. L.—Bilateral changes in corneae, following exposure to cold in an airman ... ... v 553

PAGE

Conway, J. A.—Two cases of cerebral aneurysm causing ocular symptoms with notes of other cases ... ... x 78
Coulter, R. J.—Medico-legal interest of a case of binocular keratitis following uniocular injury ... ... ii 139
Craig, James A.—Case of poisoning by homatropin ... ... iii 250
Cresswell, Thomas H.—Case of congenital miosis ... ... iv 278
Cridland, Bernard.—Tonometer of Schiötz ... ... i 352
Eczematous kerato-conjunctivitis ... ... ii 193
The occurrence of glassworkers' cataract in "Puddlers" (iron smelters) v 193
Cruickshank, M. M.—Phacoerisis: observations on the technique, with report on 115 consecutive cases ... ... ix 321
Cruise, Sir R. R., K.C.V.O.—Protection of the eye in warfare... ... ... i 489
Culpin, Millais.—Discussion on miners' nystagmus ... ... ix 564
Cummins, J. D.—Hyperplasia of hypophysis cerebri? ... ...vii 260
Note on Wernicke's pupillary reaction ... ...vii 421
Three cases of chronic tuberculous choroiditis, with a comment on the complication, optic neuritis ... ... viii 112

Daniels, C. W.—Trypanosome keratitis ... ... ii 83
Davenport, R. C.—Report on the cases of glioma retinae treated at the Royal London Ophthalmic Hospital during 1915-1924 ... ... x 474
After-results of corneo-scleral trephining for glaucoma ... ... x 478
Davies, D. Leighton.—Anophthalmia and microphthalmia ... ... i 415
Diseases of the eye of obscure origin ... ... i 608
Deelman, H. T., and **Wolff, L. K.**—Case of melanosarcoma conjunctivae bulbi ... ... v 4
de Liebermann, L.—Radiographic localization of foreign bodies in the eye viii 109
Delogé, Dr.—Some remarks on the nature and treatment of strabismus ... vi 104
Desai, H. M.—Case of congestive glaucoma after use of homatropin and eserin iii 251
Dodds, Lionel, G., O.B.E.—Congenital muscular squint ... ... x 6[illegible]9
D'Ombrain, Arthur W., and **Young, George.**—Haematoma of the cornea: a clinical note ... ... ix 299
Doyne, P. G.—The scotomata of tobacco amblyopia ... ... vi 1
Tournay's reaction... ... ...vii 420
——— and **McPherson, G.**—Artificially produced ophthalmia ... ... iii 313
——— **Moore, R. Foster, Lang, Basil T.**, and **Neame, Humphrey.**—Some causes of amaurosis in infants (Report to the Lang Research Scholarship Committee) ... ... vi 338
Duke-Elder, W. Stewart.—Changes in refraction in diabetes mellitus ... ix 167
The reaction of the intraocular pressure to osmotic variation in the blood x 1
Osmotic therapy in glaucoma ... ... x 30
The ocular circulation: its normal pressure relationships and their physiological significance ... ... x 513
Dunn, Percy.—Benjamin Travers, F.R.S. (1783-1858) (British Masters of Ophthalmology Series) ... ... i 273
James Ware, F.R.S. (1756-1815) (British Masters of Ophthalmology Series) ... ... i 401
Sir William Adams (1760-1828) (British Masters of Ophthalmology Series) ii 1
Thyroid therapy in ophthalmic practice ... ... iii 10

Eason, H. L., C.M.G.—Report on ophthalmic cases in Cairo and Alexandria i 465
East, A. G.—Entoptic appearances of senile cataract ... ... vi 365
Eaton, E. M.—The more accurate determination of the position of foreign bodies in their relation to the eyeball and its component structures... i 721
Factors in stereoscopic vision and in the visual estimation of distance ... iii 63
Visual perception of solid form ... ... iii 349, 399
Edridge-Green, F. W., C.B.E.—Relation of ophthalmology to the theory of vision ... ... i 423
The theory of vision ... ... iv 409, 503

PAGE

Elliot, R. H.—Some eccentricities of Indian ophthalmic practice ... ... i 75
Indian operation of couching for cataract. Hunterian Lecture, summary of ... ... i 367
Errors of refraction ... ... ii 313
Unusual case of idiosyncrasy to quinine ... ... iii 8
Study of some results of infection of vitreous body with septic material in couched eyes ... ... iii 49
The yielding of the optic nerve-head in glaucoma ... ... v 307
The retinal pulse ... ... v 481
The halos of glaucoma ... ... v 500
Elworthy, H. S.—Illumination in coal mines ... ... iv 167
Discussion on miners' nystagmus ... ... ix 554
Evans, J. Jameson.—Fundus lesions in cases of war nephritis... ... ... i 481

Farmer, Eric.—Experiment on visual after-sensation in reference to illumination in coal mines, carried out by National Institute of Industrial Psychology vii 328
Felix, C. H.—Crossed quadrant hemianopsia ... ... x 191
Fergus, Freeland.—Life of William MacKenzie, M.D. (1791-1868) (British Masters of Ophthalmology Series) ... ... i 141
Ferguson, Arnold.—Case of amblyopia due to amoebic dysentery with complete recovery ... ... viii 467
Fisher, J. Herbert.—Case showing evidences of raised intracranial pressure in successive pregnancies, and attributed to exaggeration of the enlargement of pituitary body, normal to pregnancy ... ... i 599
Note on cataract extraction, with a suggestion ... ... i 749
Migraine ... ... iii 242
Fison, A. H.—Positions of focal lines of a small cylindrical beam of parallel rays traversing the centre of a thin symmetrical double convex lens ... ... iii 244
Fleming, L. B.—Can simple concussion of brain give rise to optic neuritis ? iii 453
Fleming, Norman B. B., and **Taylor, Frank E.**— Bilateral glioma of retina with multiple metastases ... ... i 92
The Government Ophthalmic Hospital, Madras ... ... iv 555
Flieringa, H. J. Case of uniocular paralysis of accommodation ... viii 367
——— and **van der Hoeve, J.**—Accommodation ... ... viii 97
Foster, John.—Case of superficial and deep lens changes, associated with deposit of pigment on central area of anterior capsule of lens viii 370
Fox, L. Webster.—Clinical observations with the slit-lamp ... ... x 592
Fraser, A. Reith, and **Sichel, Alan W. S.**—Hemianopia as sole clinical feature in untreated secondary syphilis ... ... vii 525
Fraser, J. S., and **Paterson. J. V.**—Intra-nasal dacryocystostomy : intra-nasal draining of lacrymal sac. Report of 50 consecutive cases ... ... iii 197
Friedenwald, Harry, and **Friedenwald, Jonas S.**—Epithelial dystrophy of the cornea ... ... ix 14

Gainsborough. H., and **Gainsborough, R.**—Case of quinine amblyopia ... vi 259
Gala, Anton.—Instantaneous stereo-photography of the anterior section of the eye with considerable magnification ... ... ix 512
Observations on the hydrogen ion concentration in the vitreous body of the eye with reference to glaucoma ... ... ix 516
Garrow, Alexander.—Statistical enquiry into 1,000 cases of eye injuries ...vii 65
Gibb, H. P., Juler, F. A., and **Moore, R. Foster** —Treatment of intraocular foreign bodies at a base hospital in France ... ... ii 564
Gibson, J. Lockhart.—Report on ophthalmic department, Lemnos ... ... i 474
Intraocular glioma of optic nerve of each eye ... ... v 67
Injuries from high explosive ... ... v 122
Papilloedema ... ... vi 417
Siderosis ... ...vii 174
Gifford, Sandford R.—Intra-cisternal injections in treatment of luetic optic atrophy ... ...vii 506
Giri, D. V.—Case of secondary pupil ... ... ii 275

PAGE

Giri, D. V.—Ring infiltration of cornea in case of purpura; pathogenesis: observations on different forms of corneal infiltration ... ... ii 611
Injury to eye from spectacle glass ... ... iii 157
Case of ectopia lentis with coloboma ... ... viii 275
Gjessing, Harald G. A.—Case of cataracta electrica, examined with Gullstrand's slit-lamp ... ... vi 447
Tonometry ... ... vi 452
Godlee, Sir Rickman J., Bt., K.C.V.O.—Thomas Wharton Jones, F.R.S. (1808-1891) (British Masters of Ophthalmology Series) ... v 97, 145
Sir Jonathan Hutchinson, F.R.S. (1828-1913) (British Masters of Ophthalmology Series) ... ... ix 257
Gould, George M.—The diagnosis, diseases and therapeutics of ametropia... ii 305
Goulden, Charles.—Treatment of prolapse of iris following accidental perforating wounds, with note on removal of non-magnetic foreign bodies from anterior chamber ... ... iv 223
——— and **Piddoch, George.**—On the relationship between subarachnoid and intraocular haemorrhage ... ... ix 209
——— and **Whiting, Maurice H.**—Technique of Haab and small magnets in extraction of intraocular foreign bodies ... ... i 32
Graham, Ivan.—Discussion on miners' nystagmus ... ... ix 579
Graves, Basil.—Contact illumination in examination of cornea and anterior part of eye ... ... v 212, 350
Small electric ophthalmoscopes... ... ...vii 562
Notes on microscopy of living eye ... ... viii 467
Report to Lang Clinical Research Committee, Royal London Ophthalmic Hospital (bilateral chronic affection of endothelial face of cornea of elderly persons with account of technical and clinical principles of its slit-lamp observation) ... ... viii 502
Griffith, A. Hill.—Hereditary glioma of retina ... ... i 529
Grimsdale, Harold.—George James Guthrie, F.R.S. (1785-1856) (British Masters of Ophthalmology Series) ... ... iii 145
Early case of Mules's operation... ... ... iii 452
A Galilean adapter... ... ... v 65
Note on Pulfrich's phenomenon with a suggestion on its possible clinical importance ... ... ix 63

Hagen, Sigurd.—Holth's extralimbal tangential punch forceps sclerectomy for chronic glaucoma... ... ... vi 360
Haldane, J. S., F.R.S.—Discussion on miners' nystagmus ... ... ix 553
Harford, Charles F.—Discussion on miners' nystagmus... ... ... ix 567
Harman, N. Bishop.—A direct record scotometer for investigating the central field of vision ... ... v 175
Harry, P. A.—Acute anterior ethmoiditis in young subjects ... ... iii 557
Papillitis due to tonsillitis: three cases ... ... vi 216
Hartridge H.—Colour blindness and Young's hypothesis ... ... iv 318
The Ladd Franklin hypothesis of colour vision ... ...vii 139
Helmholtz's theory of accommodation ... ... ix 521
——— and **Owen, H. B.**—Test types ... ... vi 543
——— and **Yamada, K.**—Accommodation and other optical properties of the eye of the cat ... ... vi 481
Hay, Percival J.—Plastic operations about the lids and socket ... ... iv 368
Haythornthwaite, B. F.—An optical illusion ... ... ix 68
Heal, G. Freeman.—Excision of the superior tarsus and conjunctiva in treatment of trachoma ... ... x 185
Healy, James J.—Retinitis punctata albescens ... ... v 18
The prevalence of lenticular opacities in eyes of tinplate millmen ... v 194
Henderson, E. Erskine.—Angioma of the choroid ... ... iv 373
Henry, R. Wallace.—Myopia in an infant ... ... vi 218
Hepburn, Malcolm L.—Experience gained from 140 trephine operations for glaucoma ... ... vi 97
Classification of diseases of the choroid ... ... viii 401

PAGE
Herbert, H.—Maximal instillation of cocain and of eserin in cataract extraction iii 152
Additional note on free instillation of cocain with adrenalin, and of eserin in cataract extraction... ... ... iv 75
Improved iris prolapse operation for glaucoma ... ... iv 216
Small flap sclerectomy (rectangular flap sclerotomy) ... ... iv 550
Some late glaucoma results ... ... v 417
After-treatment of small flap sclerectomy ... ... vi 65
The pectinate ligament in its relation to chronic glaucoma ... ...vii 469
An iris-inclusion complication ... ... x 380
Highet, H. C.—Case of recurrent detachment of retina ... ... viii 226
Hine, M. L.—Recovery of fields of vision in concussion injuries of occipital cortex ... ... ii 12
——— and **McMullen, W. H.**—Chronic progressive ophthalmoplegia externa or infantile nuclear atrophy (Moebius) ... ... v 337
Hird, R. Beatson.—Phlyctenular disease and its relation to tuberculosis ... ii 215
Holmes, Gordon, C.M.G.—Disturbances of vision by cerebral lesions ... ii 353
Disturbances of visual orientation ... ... ii 449, 506
Palsies of the conjugate ocular movements ... ... v 241
Holth, S.—New technique in punch forceps sclerectomy for chronic glaucoma: tangential and extralimbal iridencleisis operations epitomized 1915-1919 ... ... v 544
Anatomical examination of six new cases of subconjunctival fistula scars from five months to six years after successful iridencleisis or limbal sclerectomies in chronic glaucoma... ... ... vi 10
An Arabic bronze needle from antiquity for depression of cataract viii 266
Improved punch forceps for tangential and extralimbal sclerectomy in chronic glaucoma ... ... viii 269
——— and **Berner, O.**—Congenital miosis or pinhole pupils owing to developmental faults of dilatator muscle... ... ...vii 401
Houghton, Henry S.—Note upon filarial parasites from conjunctival sac ... i 543
Hudson, A. C.—A reversible screen stereoscope ... ... ii 427
Hughes, C. A, Tomlin, H. and **Stuckey, E. J.**—Trachoma among the Chinese in France ... ... iv 1
Hughes, E. Nicholas,—Diplopia lamp ... ... x 205
Hurst, A. F., and **Symns, J. L. M.**—Narrow and spiral fields of vision in hysteria, malingering and neurasthenia ... ... iii 17

James, R. R.—A letter from Benjamin Gibson, of Manchester, on the subject of the publication of his book ... ... v 299
The Bowman Library ... ... vi 511
Ophthalmic History of Samuel Pepys ... ...vii 231
Cases of ophthalmological interest from post-mortem records of St. George's Hospital, London, 1841-1921 ... ...vii 313
Edward the Confessor's physician: an ophthalmic note ... ... ix 351
Sir William Bowman, Bt., F.R.S. (1816-1892) (British Masters of Ophthalmology Series) ... ... ix 481
Roman oculist-stamps in Britain ... ... x 113
John Dalrymple, F.R.S. (1803-1852) (British Masters of Ophthalmology Series) ... ... x 241
Turberville of Salisbury (British Masters of Ophthalmology Series) ... x 465
——— and **Colledge, Lionel.**—Lupus of lacrymal sac ... ... viii 165
——— and **Trevor R. Salusbury.**—Cases of haemangeioma of palpebral conjunctiva forming pedunculated tumours ... ... ii 129
Jeremy, H. Rowe.—Cataract following thyroidectomy ... ... iii 315
Juler, F. A.—Serous cyst of orbit caused by aniline pencil ... ... viii 466
——— **Gibb, H. P.,** and **Moore R. Foster.**—Treatment of intraocular foreign bodies at a base hospital in France ... ... ii 564

Keegan, J. Jay.—Technique and reaction of intracranial mercuric bichloride injections ... ...vii 522
Kerry, Richard.—Iodine in inflammation of the eye ... ... iii 448

PAGE

Keys, M. J.—Glioma retinae, with report of a case ... ... vi 110
Khan, Wajid Ali.—Pedigree of lamellar cataract ... ... x 387
Atypical coloboma of iris ... ... x 389
Pathogenesis of microphthalmia ... ... x 625
——— and **Neame, Humphrey.**—Glaucoma secondary to choroidal sarcoma. The treatment of painful blind glaucomatous eyes ... ... ix 618
Kidd, Leonard J.—The fourth cranial nerve ... ... vi 49
Kiep, Walter H. and **Maxwell, Euphan M.**—Notes on six cases of iritis and cyclitis occurring in dysenteric patients ... ... ii 71
Killick, Charles.—Idiopathic detachment of retina ... ... v 54
Unusual case of perforating wound of cornea ... ... vi 260
Treatment of conical cornea ... ...vii 264
Series of 100 cases of cataract removed under a subconjunctival bridge ... ...vii 320
Kirk, J.—Trachoma in the Straits Settlements ... ... ii 135
Kirkpatrick. H.—Double orbital sarcoma ... ... i 364
Epidemic of macular keratitis ... ... iv 16
Diseases of optic nerve as met with in Government Ophthalmic Hospital, Madras ... ... iv 271
Use of magnesium sulphate as local application in inflammation of conjunctiva and cornea ... ... iv 281

Lagrange, Henri.—Derangements of the organo-vegetative nervous system and of the endocrinian system in essential glaucoma ... ... ix 398
Lang, B. T.—The position of the axis in astigmatism, and the amount of the astigmatic error, from analysis of 4,000 prescriptions ... ... iv 126
Perimetry. The methods, means and manner of determining the size of a field or scotoma ... ... iv 489
Scotometry ... ... v 157
Modification of usual method of needling the lens capsule after cataract extraction ... ... viii 459
Modification of usual method of removing the lens in the extraction of senile cataract ... ... viii 464
——— **Neame Humphrey, Doyne, P. G.,** and **Moore, R. Foster.**—Some causes of amaurosis in infants (report to the Lang Research Scholarship Committee) ... ... vi 338
Lawford, J. B.—Edward Nettleship, F.R.S. (1845-1913) (British Masters of Ophthalmology series) ... ...vii 1
——— and **Neame, Humphrey.**—Binocular choroidal tuberculosis with detachment of retina in two kittens ... ... vii 305, 419
Lawrie, W. Duncan.—Microphthalmia with vertical slit-like pupil, an opacity of cornea and remains of pupillary membrane ... ...vii 240
The scleral stitch in advancement operations... ... ... x 35
Laws, W. G.—Rare form of retino-choroiditis, possibly associated with pituitary dysfunction ... ... viii 410
Lawson, Sir Arnold, K.B.E.—Three cases of fur infection of conjunctiva from cats ... ... i 310
Case of detachment of retina at the ora serrata ... ... i 602
Tints and their values ... ... ix 97
Lea J. Augustus.—Paresis of accommodation following injury by lightning iv 417
Treatment of trachoma ... ... iv 417
The gouty eye ... ... iv 419
Leiper, R. T.—Thelaziasis in man ... ... i 546
Leser, Otokar.—The development of the extra-ocular muscles in some mammals ... ... ix 154
Lewkowitsch, H.—Improved perimeter and screen for examining field of vision ... . v 166
Licskó, A.—Removal of cataract with the capsule ... ... x 485
Lister, A. E. J.—Case of glaucoma treated by sclero-corneal trephining .. ii 560
Lister, Sir William, K.C.M.G.—Holes in the retina and their clinical significance ... ... viii 1
Some concussion changes met with in military practice ... ... viii 305
